

Remote Eyes® Drive-Thru Expediter™ Point of Sale Compatibility Guide

First Quarter, 2011

Point of Sale (POS) systems compatible with Drive-Thru Expediter (DTE) are listed below. For compatible POS products, DTE guarantees a minimum function of providing a drive-thru customer vehicle image associated with the correct POS order number. Additional features, such as order details and the automatic removal of orders from the DTE Client screen, may or may not be available, depending on the contents of the POS transaction data screen and the organization and flow of customer orders at the store operating level.

DTE-compatible POS systems are:

- Micros 3700
- Micros e7
- Micros 9700
- Radiant T160 (serial or IP)
- Radiant (IP)
- POSitouch
- Panasonic 7900 and 7750
- ScanMaster
- Sharp UP3300
- Logivision L-POS
- Aloha 6.1
- PixelPoint
- Maitre'D
- Xpient
