**Durham Wine and Spirits Chooses BMSSPOS
with Remote Eyes® Video Management
*Fine wine store uses integrated video to streamline operations***

Hanover, Maryland, May 1, 2011 – BMSS LLC, full service provider of BMSSPOS store management and inventory control systems, and Odyssey Technologies, Inc., manufacturer of Remote Eyes® digital video management systems, are pleased to announce that Durham Wine and Spirits, a Durham, Connecticut based supplier of fine wine and spirits, has selected BMSSPOS as its point of sale (POS) system fully integrated with Remote Eyes surveillance and video management. BMSSPOS is the only retail POS that fully integrates video management into the cash register hardware platform for both transaction management and general surveillance.

Says Linda Mone, owner of Durham Wine and Spirits, "BMSSPOS is the perfect tool for managing my retail operation, and the integrated Remote Eyes video gives me the flexibility and control I need as the business owner. The system allows me to be in the office or off-site and still monitor employee activity on the registers up front for both training and customer satisfaction purposes. In one case, I observed an employee ringing up an item incorrectly and was able to correct her mistake on the spot, creating a very happy and loyal customer since the correction was in the customer's favor."

Mone continues, "We have complete control over customer activity in our store, so shoplifting is stopped in its tracks. And the inventory management features, supplemented by video of each sale, make us a much more efficient operator than the guy down the street!"

About Odyssey Technologies, Inc.

Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 10,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with point-of-sale, access control and networked transaction systems. About BMSS LLC

BMSS LLC is a full service Point of Sale and software development company in business since 1981. BMSSPOS is a **PA-DSS Certified** (formally known as PCI compliant) complete point of sale (POS) store management and inventory control system. We have had our software deployed in a variety of businesses for over 10 years. BMSSPOS software is "Certified Solution Ready" with Hewlett Packard, Touch Dynamic, and Sharp, Inc. BMSSPOS has developed a "Retail Appliance" specifically for these POS hardware platforms. Our development team has worked closely with these industry leaders, and the result is a heavily integrated PA-DSS Certified POS system. For more information about BMSSPOS, please visit us on the Web at www.bmsspos.com or email us at bmss@bmsspos.com.
