## **Choice Hotels Selects Odyssey Technologies, Inc. as Qualified CCTV Vendor One of the World's Largest Hotel Franchisors Chooses Remote Eyes®**

**Hanover, Maryland, December 1, 2010** - Odyssey Technologies, Inc., manufacturer of Remote Eyes® digital video management systems, is pleased to announce that Choice Hotels International, one of the world's largest hotel franchisors with hotels at more than 6,000 locations, has selected Odyssey as its qualified vendor for CCTV and surveillance equipment.

"We are honored to have been selected by Choice to provide this important solution to their community of franchise owners," stated Odyssey CEO, John Webster. "Our H.264 video management platform will give them excellent value and remote surveillance capabilities for protecting their properties."

Long-time customer Robert O'Connor of Edgewood Management Corporation says, "Nobody does it like Remote Eyes. We recently attended a leading security conference and saw about a thousand vendors – no one had a solution that even came close. Remote Eyes helps us manage our properties more effectively than ever before. For example, we can quickly see if snow removal team members show up on time while simultaneously monitoring areas at a high risk for property damage. Remote Eyes is an extremely good value for the price of the product."

### ***About Odyssey Technologies, Inc.***

Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 10,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with point-of-sale, access control and networked transaction systems.
