**Bill Bateman's Bistro - Golden Ring Chooses Remote Eyes® H.264 Surveillance
*Fusion Designs, Inc. implements integrated solution for Baltimore restaurant***

Laurel, Maryland, July 1st, 2009 - Odyssey Technologies, Inc., manufacturer of Remote Eyes® digital video management systems, is pleased to announce that Bill Bateman's Bistro - Golden Ring, a Baltimore-based chain of casual dining restaurants, has selected its H.264 Remote Eyes high resolution video management system as its platform for general surveillance and integration with its Micros 3700 point of sale system. The system design and installation was completed by Fusion Designs, Inc. of Forest Hill, Maryland.

"The Remote Eyes system gives us everything we need to manage our business efficiently. The image quality is outstanding, and the integration with our Micros POS makes Remote Eyes an indispensable tool for managing our front office operation and protecting our cash flow," stated Jamie Neuberger, owner of Bill Bateman's Bistro - Golden Ring.

Bill Mastromanolis, President of Fusion Designs, Inc. says, "Remote Eyes is the best product in the field, bar none. Not only is their POS integration software the best in the business, but with their new H.264 compression they now have the best image quality and frame rates I have seen anywhere. An incredibly strong product plus outstanding technical support make Remote Eyes the solution of choice."

About Odyssey Technologies, Inc.

Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 9,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with point-of-sale, access control and networked transaction systems.
