**Aldelo Systems Inc. Certifies Odyssey Technologies, Inc. Hardware and Software
Remote Eyes Digital Video Integrates to Aldelo Software**

Modesto, California, December 24, 2008 - Aldelo Systems Inc., the leading provider of low cost, feature rich and easy to use restaurant POS software solutions for the hospitality industry, has certified Odyssey Technologies, Inc. hardware and its Remote Eyes software for enhanced digital video management.

“Aldelo Systems Inc. is pleased to partner with Odyssey Technologies, Inc,” stated Harry Tu, CEO. “Certification of Remote Eyes digital video management system and Odyssey hardware makes surveillance and its benefits easily available to our customers.”

“Aldelo is recognized as one of the leading POS software providers in the hospitality industry, and Odyssey is very excited about the completion of this innovative and ground-breaking integration between its Remote Eyes® digital video management system and Aldelo’s POS software,” stated John Webster, CEO of Odyssey Technologies, Inc. “Now Aldelo users can immediately enhance their installations with integrated video surveillance. Our integration with Aldelo is software driven, meaning installation is as simple as placing the Remote Eyes server on the same network with the Aldelo system. And users with multiple locations can use Odyssey’s enterprise management services to view transaction data and integrated video from all locations in a single interface.”

About Aldelo: Aldelo Systems Inc. develops software solutions for the hospitality industry and is a leading provider of point of sale and management systems for independent and chain establishments, including restaurants and food and beverage operations in hotels, resorts and clubs.
