Remote Eyes® Integrates with SpeedLine® POS
Enhanced Security for Pizza Restaurant Owners

Hanover, Maryland, July 18, 2013 - Odyssey Technologies, Inc., a leading video surveillance software vendor, is pleased to announce the successful integration of its Remote Eyes video management system and POSWatch Enterprise™ loss prevention solution with SpeedLine POS. The integration uses EventStream, a unique SpeedLine data sharing technology, to tie real-time transaction data with surveillance video to deter theft and easily identify offenders.

"SpeedLine users can now tighten up security with integrated video surveillance and loss prevention from Remote Eyes," stated John Webster, CEO of Odyssey Technologies, Inc. "It's as easy as placing the Remote Eyes server on the same network with the SpeedLine system. Users with multiple locations can use Odyssey's POSWatch Enterprise software to view transaction data and integrated video from all locations at once. Automated email alerts and enterprise level reporting make it easier than ever to nip inside theft in the bud."

"SpeedLine is recognized as a leading POS software provider for pizza and delivery restaurants," Webster added, "and Odyssey is excited about the completion of this innovative integration between its Remote Eyes digital video management system and the SpeedLine POS software."

About Odyssey Technologies, Inc.
Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 13,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with point-of-sale, access control and networked transaction systems. To learn more about Odyssey Technologies, Inc., please visit us at www.remoteeyes.com or e-mail Odyssey on sales@remoteeyes.com.

About SpeedLine Solutions, Inc.
SpeedLine (speedlinesolutions.com) provides POS and restaurant management systems for pizza and delivery, quick service, and multi-concept restaurant chains. The leading provider of innovative solutions for pizza point of sale, SpeedLine helps restaurants operate more efficiently and profitably. Based in Vancouver, British Columbia, and Lynden, Washington, SpeedLine delivers added value through strategic partnerships with a network of leading technology providers and local resellers. Chains across North America and in several international markets drive restaurant performance with SpeedLine POS.
