Remote Eyes[®] Integrates with Squirrel Systems
Loss Prevention Solution for Hospitality Users of Squirrel POS Software

Hanover, Maryland, July 28, 2014 - Odyssey Technologies, Inc., a leading video surveillance software vendor, is pleased to announce the successful integration of its Remote Eyes video management system and POSWatch Enterprise™ loss prevention solution with Squirrel POS Software.

“Squirrel users can now enhance security and protection from employee theft with integrated video surveillance and loss prevention from Remote Eyes,” stated John Webster, CEO of Odyssey Technologies, Inc. “It’s as easy as placing the Remote Eyes software on the same network with the Squirrel POS server. Users with multiple locations can use Odyssey’s POSWatch Enterprise software to view transaction data and integrated video from all locations at once. Automated email alerts and enterprise level reporting make it fast and easy to monitor employee activity at each store.”

“Squirrel is recognized as a leading POS software provider for the global hospitality industry,” Webster added, “and Odyssey is excited about the user benefits derived from integrating Remote Eyes and POSWatch with Squirrel POS software.”

About Odyssey Technologies, Inc.

Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 13,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with over 50 leading point-of-sale, access control and networked transaction systems.
