**Remote Eyes<sup>®</sup> Integrates with Agilysys InfoGenesis<sup>™</sup>  
*Loss Prevention Solution for Casinos, Hotels, Restaurants, and Healthcare***

**Hanover, Maryland, August 13, 2014** - Odyssey Technologies, Inc., a leading video surveillance software vendor, is pleased to announce the successful integration of its Remote Eyes video management system and POSWatch Enterprise<sup>™</sup> loss prevention solution with Agilysys InfoGenesis POS.

"InfoGenesis users can now enhance security and protection from employee theft with integrated video surveillance and loss prevention from Remote Eyes," stated John Webster, CEO of Odyssey Technologies, Inc. "It's as easy as placing the Remote Eyes software on the same network with the InfoGenesis POS server. Users with multiple locations can use Odyssey's POSWatch Enterprise software to view transaction data and integrated video from all locations at once. Automated email alerts and enterprise level reporting make it fast and easy to monitor employee activity at each store."

"InfoGenesis is recognized as a leading POS software provider for casinos, healthcare, hotels, restaurants, resorts, and schools," Webster added. "Odyssey is excited about the user benefits derived from integrating Remote Eyes and POSWatch Enterprise with InfoGenesis POS software. Both systems are highly scalable in terms of revenue centers, terminals, and users, so they complement each other nicely in that regard."
