**Remote Eyes[®] Integrates with onePOS[®]
*Loss Prevention Solution for Restaurants and Hospitality***

Hanover, Maryland, August 20, 2014 - Odyssey Technologies, Inc., a leading video surveillance software vendor, is pleased to announce the successful integration of its Remote Eyes video management system and POSWatch Enterprise™ loss prevention solution with onePOS software offered by onePOS, LLC.

“onePOS users can now enhance security and protection from employee theft with integrated video surveillance and loss prevention from Remote Eyes,” stated John Webster, CEO of Odyssey Technologies, Inc. “It’s as easy as placing the Remote Eyes software on the same network with the onePOS server. Users with multiple locations can use Odyssey’s POSWatch Enterprise software to view transaction data and integrated video from all locations at once. Automated email alerts and enterprise level reporting make it fast and easy to monitor employee activity at each store.”

“onePOS focuses on the full service, quick service, bar/night club, and resort market segments,” Webster added. “Odyssey is excited about its new relationship with onePOS and gaining access to onePOS’ worldwide reseller network.”

About Odyssey Technologies, Inc.

Odyssey Technologies, Inc. was founded in 1997 and is an early pioneer in digital video. With over 13,000 video surveillance systems installed worldwide, Odyssey differentiates itself by providing equipment, software, and services for centralizing and automating multi-site operations in Retail, Hospitality, Financial Services, and Property Management. Remote Eyes systems feature superior video compression, multi-site remote video management, and integration with over 50 leading point-of-sale, access control and networked transaction systems.
